

include/printf.h

```
graph TD; A[include/printf.h] --> B[stdarg.h]; A --> C[unistd.h];
```

A diagram illustrating a header file dependency. At the top, a gray rectangular box with a black border contains the text 'include/printf.h'. Two blue arrows originate from the bottom edge of this box. The left arrow points diagonally down and to the left to a white rectangular box with a gray border containing the text 'stdarg.h'. The right arrow points diagonally down and to the right to another white rectangular box with a gray border containing the text 'unistd.h'.
